AN ENGINEER FOR EVERY PRODUCT

**AN  
ENGINEER FOR  
EVERY PRODUCT**

[www.myriadly.com](http://www.myriadly.com)

## Introduction

- We Myriadly Engineering & Business Solutions Pvt. Ltd. are dedicated to provide Engineering & Business Solutions to the Chemical & Pharmaceutical Industries. It is the first company for chemical & Pharmaceutical Industries which is providing complete product range with all brands as desired by the client. Our Company is fulfilling each & every requirement for project & engineering work. We deals in several products that are enlisted here : - Hot Water System, Industrial Generators, Industrial Safety Products, Non-Agitated Vessel, Power Handling Systems, Pumps, Reactor/Agitated Vessel, Shell & Tube Condenser, Single Fluid System, Sparkle filter, Storage Tank, Ware House Product and water Treatment Products, Cooling towers, Gowning & Clean Room Area Products etc.
- In other words, we can say that our company is working with the aim of providing all the one stop solutions which are required to run a chemical & pharmaceutical Industry as machinery, Engineers and consultants is available on a single platform that is provided by us. For the same, Buyers don't have to go anywhere for different products of severe brands including their techno-commercial offers is available on a single place.
- Our Company has achieved desired growth due to appreciation and goodwill that customers have showered on it from all over the India. Our Company is putting all its sincere efforts at keeping up to customer satisfaction and demands.
- Our motive is to provide finest quality services to the industries. Our products are manufactured as per Indian and International standards.
- **Why should buy from us :-** As similar to manufacturers we are also selling the products on the same price as you are buying from the manufacturers but the main aspect we believe in “After Sales & Services”. We are providing one Year “After Sales & Services” without any charges.

**“OUR VISION IS TO  
BECOME A ONE STOP SOLUTION FOR ALL INDUSTRIAL NEEDS”**

## Quality Policy:-

- We at Myriadly Engineering and Business Solutions Pvt. Ltd. are committed to design & manufacture the product to meet the requirement of the customer which would be able to delight him by good quality and better Services.
- A product that manufactures under Myriadly Engineering & Business Solutions Pvt. Ltd. is subjected to severe testing & quality checks before dispatch under various stages as:-
- **Raw material Inspection:** - Inspection of raw material has to be done as per requirement & schedule fixed.
- **Inspection during production:** - Inspection of the molding, fabrication, galvanizing & machining has to be done to minimize the rejection & quality production.
- **Pre dispatch inspection:** - A pre dispatch inspection has to be done after assembly or production of the products to ensure proper fitment of all the accessories.
- **Drawings & Test Certificates:** - All the Drawings & Test Certifications will be provided with the machine. We also provide Engineers to commission the machine.
- For the same we are working on focused and very clear objectives, providing solutions to customers working problems customized to their needs and continuous improvement on products and systems.

## Our Vision and mission

- Myriadly Engineering & Business Solutions Pvt. Ltd. is dedicated to become largest supplier and a service oriented company for the chemical & pharma industry is being led by our Managing Director Mr. Rakesh Agrawal since 2018. He has a working experience of 10+ years as process engineer, project engineer and project manager in chemical & pharmaceutical industries.

**Myriadly**  
Industry  
AN ENGINEER FOR EVERY PRODUCT

## HOT WATER SYSTEM - 50000 TO 500000KCAL

**Capacity :** 50000 to 500000 kcal Maximum Heating Temperature: 100°C Temperature Accuracy: +/- 2°C Heat Transfer **Medium :** water

**The Diesel Generator Set:** The Power House In-house packaging In-house design & manufacturing of Control Panel Acoustic Canopy, Base Frame, Silencers and Fuel Tank Powder coating with 9-Tank pre-treatment process In-house test cell Manufactured for ease of servicing & usage Diagnostic & Monitoring Monitors Engine speed, oil pressure & coolant temperature Monitors frequency, voltage, current & power Comprehensive engine and alternator protection Inbuilt Auto-Mains (Utility), failure control module Largest backlit LCD icon display, with alarm indication The Acoustic Enclosures Modular RTU .

## HOT OIL UNIT- 20000 TO 60000KCAL

## COLLOID-A-TRON

Industrial scale preventor which prevents the formation of Hard Water Scale in pipe lines and heat transfer surfaces. Protects your pipes, boilers geysers and other electrical appliances from choking caused due to lime scale formation. it is used for industrial purpose to remove the scaling of the water before following equipment: 1) PHE's 2) Condenser 3) Cooling Tower 4) Boiler 5) Jacket or coil of any equipment It is very useful to avoid scaling in inside the jacket & tubes without using any Energy and chemical.

Fire Extinguisher ball is a ball shaped fire extinguisher. Simply thrown into a fire. it will activate within 3 seconds and effectively disperse extinguishing chemical.

## ELIDE FIRE BALL

## SHELL AND TUBE HEAT EXCHANGER 0.5M2 TO 100M2

Design Pressure FV to 6 Kg/cm<sup>2</sup>; Design Temperature-40 to 150 Deg C;Type;-Shell & Tube, Horizontal/vertical.

## GLOVE BOXES

The Glove Box/Isolator will ensure the safe operation of charging the powder from bag to the Bin. Glove Box system consists of Gloves and Sight Glass and Powder Charging Cover With Provision of Nozzles for Vacuum, Nitrogen, and Vent & Solvent Washing. A Material unloading Nozzle is there to unload the Powder into the Charging Bin with Isolator Valves.

## MOBILE SCISSOR LIFT

1. Pointing control of lifting up and down. 2. Manganese steel lifting arm in high strength with rectangle shape. 3. The antiskid design endows the platforms with excellent antiskid property. 4. The control panels are available on the platforms and ground. 5. Fine grinding cylinder in good sealing performance. 7. Neatly folding guardrails make it easy to maneuver through doorways, into elevators and throughout other height-restricted areas. 8. Swing-out tray for easy maintenance access. 9. Collocate Safety to arrest sudden fall of table in case of power failure. 10. Platform has side railings for safety. 11. In case of power failure.

## INDUSTRIAL AIR CURTAIN

Weight Kgs: 44 Dimension: 914 x 345 x 351 mm Max. Air velocity at Nozzle: 22 m/s Noise Level dB: <65 db No. of Blowers: 2 No. of Motors: 1 Voltage: 440v/50hz Power: 1100 W Phase: Three Blower material: Aluminum CFM: 2200 Effective height: 20-22 feet

## REACTOR/AGITATED VESSEL

Limpet; inner Dia.-2000mm; TAN To TAN Height of shell-2500mm; Baffles Length, 2500mm, 8mm thk; Shell Thk-8mm; Top/Bottom Dish Thickness-10mm; Design Pressure-3.5Kg/cm<sup>2</sup> & FV; Design Temp.-20 TO 150 Deg

## TANKS & STORAGE VESSEL

These tanks are used for storage of Liquids, Gases etc which has high Pressures. These tanks can be provided with Lugs, Legs or Skirt Supports & Saddle Supports for Horizontal Mounted Tanks.

## CLEAN ROOM AREA EQUIPMENTS & ACCESSORIES

Clean room area equipments are available as per USFDA guidelines with no corners available for powder deposition. MOC – SS30/SS16; Finishing – Mirror Finished.

**GLOVES HOLDER**

**GLOVE DISPENSER**

**WASTE BIN**

**SHOE DISPENSER**

**SHOE RACK**

**STORAGE BIN**

**NITRILE GLOVES**

**FLP AIR CURTAIN**

**SS PLATFORM**

**POWER HANDLING SYSTEM**

**DUST COLLECTOR**

**DRUM HANDLING  
SYSTEM FOR  
CORROSIVE LIQUIDS**

**GLOVE BOX/
